Анализ:

newkaliningrad.ru: соединение стабильное и без потерь данных (Loss % = 0). Среднее время отклика (Avg) составляет 37 мс, это высокая скорость передачи. Соединение отличное.

yandex.ru: соединение стабильное и без потерь данных (Loss % = 0). Среднее время отклика (Avg) составляет 86 мс, скорее всего из-за большего географического удаления серверов и роста числа промежуточных узлов. Соединение хорошее.

microsoft.com: зафиксировано 100% потерь пакетов (No response from host). Возможно сервера Майкрософт игнорируют запросы из России.
